

# 22" Mini - Kiosk

## 22" Mini - Kiosk

This compact yet powerful countertop digital sign is a great solution for your business. Built to last, this digital sign has been manufactured with durable tempered glass, metal encasing, an advanced cooling system, and can be run 24/7. Using PowerPoint or any other graphics design program you can easily create and upload information to the sign using a USB Thumb drive. This digital sign comes with easy to use scheduling software that you can use to program and schedule content for the digital sign to play on specific days and times. See these kiosks featured in medical facilities, at a way finding station, on a retail countertop, as an employee information center, at an auto dealership, and many more - the possibilities are endless!
